HOW TO READ YOUR RACK

1. Scan your rack from left to right.
2. Look for patterns, not a perfect hand.
3. Identify what you have working for you.
4. Decide which section of the NMJL Card matches your tiles.
5. Choose a direction, not a hand.
6. Stay flexible and be ready to pivot.

Let Us Mahj Tip ♡

BEFORE YOU LOOK AT THE NMJL CARD,
Read Your Rack.

Look for patterns, not a specific hand.

Let Us Mahj Philosophy

Play the tiles you have.
Don't chase the tiles you wish you had.

NEXT STEP:
Find the SECTION on the NMJL Card that matches your tiles.
Then look within that section for hands that fit.
